June 2013

I hereby submit the 2013-14 Special Districts Adopted Budget, guided by the Countywide Vision. This budget book presents the budgets for the Board-Governed Special Districts managed through the Special Districts Department, the San Bernardino County Fire Protection District (County Fire), the Public Works Department (San Bernardino County Flood Control District), and the County Airports Department (CSA 60 – Apple Valley Airport). The budget totals \$424.2 million and lays the framework to achieve the “complete county” by allocating resources to achieve Board priorities and objectives. The 2013-14 Special Districts Adopted Budget has been balanced and is consistent with policy direction received from the Board of Supervisors. No reserves are being used to fund ongoing costs.

THE BUDGET IN BRIEF

This budget book presents special revenue funds, capital project funds, internal service funds, enterprise funds, set-asides and reserves. The total spending authority for these funds in 2013-14 is \$424.2 million.

The mission of the government of the County of San Bernardino is to satisfy its customers by providing service that promotes the health, safety, well being, and quality of life of its residents according to the County Charter, general laws, and the will of the people it serves.

2013-14 HIGHLIGHTS

Property Taxes – Budgetary property tax revenues for 2013-14 were adjusted based on the current year's property tax and special assessment collections and reflects a 1.5% increase for County Fire, approximately a 0.4% increase for Special Districts, and a 10.6% increase for Flood Control. The significant increase in Flood Control primarily results from the dissolution of the Redevelopment Agencies.

Fee Adjustments – Proposition 218 notices were sent to all Special District water and sewer ratepayers regarding fee increases and the 2013-14 Adopted Budget reflects an overall increase in related revenue of 6.7%. Fee revenue is also included for County Fire and Special Districts, including new fees, and adjustments to existing fees based on program changes and/or increases in operating expenses. The 2013-14 Adopted Budget reflects a 10.4% increase in fee related revenues for County Fire and 5.6% for Special Districts other than the Water and Sanitation Districts. Although included in budgeted revenues, County Fire fees were not approved at the time of budget adoption. Revenues and expenditures of County Fire will be closely monitored until such time as the County Fire fees are approved.

Flood Control Other Revenue – The Flood Control District is anticipating to have several land sales occur in 2013-14 which is estimated to generate \$9.2 million in proceeds.

County General Fund Support – Support to County Fire for 2013-14 is \$18.8 million, a 6.9% increase, in an effort to sustain acceptable service levels.

Staffing Changes – Despite adding contract services for the Hesperia Fire Protection District and a new contract with Crest Forest Fire Protection District, there is a net decrease of 129 positions for County Fire. This is primarily due to the implementation of a Department-wide paid-call staffing reorganization. The net decrease of 18 positions for Special Districts is primarily due to a decrease in limited-term Public Service Employees in various Park Districts. The decrease of 12 positions for San Bernardino County Flood Control District is primarily due to a decrease in contract positions for the Hazardous Tree Program due to the elimination of funding at the end of 2012-13.

Service Level Changes – Overall, service levels will not be impacted by the recommended staffing changes with the exception of a service level increase for Hesperia Fire Protection District and new services for Crest Forest Fire Protection District.

The 2013-14 Adopted Budget workbook is presented by department in the following order: San Bernardino County Fire Protection District, Special Districts Department (including CSA 60 – Apple Valley Airport), and the San Bernardino County Flood Control District. The operating budgets within each department are followed by sections on Capital Improvement Projects, Set-Asides, Reserves and Equipment Budget Detail.

COUNTY OF SAN BERNARDINO SPECIAL DISTRICTS

The 2013-14 Special Districts Adopted Budget covers the period from July 1, 2013 – June 30, 2014. The budgets contained in this workbook are for the Board-governed special districts managed through the Special Districts Department, the San Bernardino County Fire Protection District (County Fire), the Public Works Department (San Bernardino County Flood Control District) and the County Airports Department (CSA 60 – Apple Valley Airport). The budget consisting of the special revenue funds, capital project funds, internal service funds, and enterprise funds has a total appropriation of \$424.2 million. Each department is responsible for operating within their budget and has the authority to spend up to the approved budget.

When developing their individual budgets, each department considers the following Countywide vision and goals of the County of San Bernardino approved by the Board of Supervisors:

Countywide Vision Statement

The following Countywide Vision statement was adopted on June 30, 2011, by the County Board of Supervisors and San Bernardino Associated Governments (SANBAG) Board of Directors.

We envision a complete county that capitalizes on the diversity of its people, its geography, and its economy to create a broad range of choices for its residents in how they live, work, and play.

We envision a vibrant economy with a skilled workforce that attracts employers who seize the opportunities presented by the county's unique advantages and provide the jobs that create countywide prosperity.

We envision a sustainable system of high-quality education, community health, public safety, housing, retail, recreation, arts and culture, and infrastructure, in which development complements our natural resources and environment.

We envision a model community which is governed in an open and ethical manner, where great ideas are replicated and brought to scale, and all sectors work collaboratively to reach shared goals.

From our valleys, across our mountains, and into our deserts, we envision a county that is a destination for visitors and a home for anyone seeking a sense of community and the best life has to offer.

The County and SANBAG are now committed to facilitating discussions centered on how each of the nine following core vision elements can be effectively focused to implement the Countywide Vision for a complete community – one that affords all citizens an opportunity for healthy lifestyles, strong public safety and quality amenities. These discussions involve diverse stakeholders representing residents, employers, educators, community and faith-based organizations, and government.

Employee groups were established to organize internal Vision Element meetings and to develop a Paradigm and Job Statement that would define County government's role in achieving the Countywide Vision. On April 10, 2012, the County Board of Supervisors approved the Paradigm and Job Statement. The Paradigm states that the County shall take responsibility for ensuring that efforts to achieve the Countywide Vision will be pursued, and the Job Statement simply states, "Our job is to create a county in which those who reside and invest can prosper and achieve well-being." The first two Regional Implementation Goals developed through the Countywide Vision process focus on cradle-to-career assistance and creating a business-friendly environment. These goals were developed by external Vision Element groups and were jointly adopted by the County Board of Supervisors and the SANBAG Board on May 2, 2012. The Countywide Vision statement, report and related documents are available for review at www.sbcounty.gov/vision.

As part of the continuing effort to align resources with operational priorities, each department was asked to review existing performance measures to ensure alignment with the 2013-14 County Goals and Objectives. These measures should be realistic, easily quantifiable, and reflect progress on long-term multi-year strategic initiatives or the accomplishment of shorter-term tactical goals, that directly correlate to the identified County objectives and reflect activities within the department’s control. In addition, performance measurement progress will be updated and reported as part of each quarterly budget process.

The 2013-14 Adopted Budget book includes prior year accomplishments, departmental strategies to achieve County Goals and Objectives and departmental performance measures to demonstrate if departments are meeting the County Goals and Objectives.

BUDGET PLANNING CALENDAR

ONGOING

Policy Direction - The Board of Supervisors provides ongoing policy direction to the Chief Executive Officer.

Significant Budgetary or Programmatic Impacts – Significant budgetary or programmatic changes and potential impacts are immediately communicated to the County Administrative Office and the Board of Supervisors to allow for timely decision-making and policy direction.

Year-End Estimates - Departments provide year-end estimates of revenues and expenditures to Finance and Administration on a monthly basis and any significant changes are addressed timely.

Quarterly Budget Reports - Each quarter the County Administrative Office brings an agenda item to the Board of Supervisors requesting modification to the adopted budget. These quarterly budget adjustments serve as a management tool to help each department assess the current environment, and anticipate and respond appropriately to that environment. In addition, the quarterly budget adjustments provide the Board of Supervisors with the most current information on County department revenues (sources) and appropriation (requirements) with which to base decisions, and serve as a guideline to lead the County in preparing the upcoming budget.

OCTOBER THROUGH DECEMBER

Capital Improvement Plan – Departments submit annual capital improvement requests for improvements to land or structures that exceed \$5,000. These requests include a project description and justification, financial impact, and funding source. The requests are evaluated and prioritized by Finance and Administration and provided to the Chief Executive Officer for comments and recommendations, and presented to the Board of Supervisors for final approval. In addition, departmental five-year capital improvement plans are updated to re-evaluate priorities based on changing circumstances, staffing levels, and available funding.

Fee and Internal Service Rate Development – Departments develop their recommended fee changes and internal service rate adjustments for the upcoming budget year and submit them to Finance and Administration for review and recommendation to the Chief Executive Officer, and to the Board of Supervisors for final approval. Departments are required to compute their full cost of service, capturing both direct and indirect costs associated with fees and internal service rates. Departments are able to recommend an alternate fee amount to the Board of Supervisors, if based on their knowledge, implementation of a full cost fee or internal service rate would not be beneficial.

JANUARY AND FEBRUARY

Five-year Fiscal Forecast – Finance and Administration develops a five-year fiscal forecast of financial operations for general fund programs, projecting major revenues (sources) and expenditures (requirements), based on current service levels and expected future changes to those programs or service levels. The analysis includes the identification of trends, significant impacts, and recommendations, which are presented to the Chief Executive Officer for recommendation to the Board of Supervisors for final approval.

Budget Prep System – The in-house budget system is updated for changes in the various Memorandums of Understanding between the County and the various employee representation units.

MARCH AND APRIL

Budget Prep System – The system is opened up for departmental input in preparation of the budget submittal and internal training is conducted for all users of the system.

County Fiscal Plan – The upcoming five-year County fiscal plan is developed based on revenue projections and estimates for cost increases of ongoing costs for the five years. This plan includes the allocation of discretionary general funding (net county cost) and provides estimates of any remaining funding or shortfall needed to maintain current services.

Preparation of Recommended Budget – Departments develop their respective recommended budgets and submit them to Finance and Administration for review, and to the Chief Executive Officer for recommendation, and to the Board of Supervisors for final approval. General fund departments must budget within their respective net county cost allocations given to them based on the strategic plan.

MAY AND JUNE

Internal Service Rates – The rates charged by departments for services provided to other departments are brought before the Board of Supervisors for approval. In addition to rates for internal service funds, rates for services provided by general fund departments, such as Facilities Management, Human Resources, and Architecture and Engineering are also approved.

Fee Hearing – The Board of Supervisors conducts a public hearing on the Recommended Fee changes for the upcoming fiscal year. Approved fee changes are included in the Recommended Budget submittals to the Board of Supervisors.

Submission of Recommended Budget – The Recommended Budget Book is finalized and presented to the Board of Supervisors. The County Administrative Office publishes notices and schedules public hearings to discuss the Recommended Budget.

Budget Hearing and Adoption of Adopted Budget – The Board of Supervisors conducts a public hearing on the Recommended Budget. At this time, the Board may modify the Recommended Budget. All Board approved changes are incorporated into the Adopted Budget.

JULY THROUGH SEPTEMBER

Budget Prep System – Finance and Administration makes final budget changes to the Budget Prep System for items approved by the Board of Supervisors, including final fund balance adjustments.

Preparation of Adopted Budget Book – Finance and Administration updates the Recommended Budget Book to reflect final changes.

Budget Process

Special Districts has special revenue funds, capital project funds, internal service funds and enterprise funds. All of these funds are restricted to the revenue sources they receive. Each department having these types of funds is responsible for developing its budget based on the revenue (sources) available to them. These sources include projected revenue to be collected in 2013-14 and any revenue not spent and carried forward from prior years (for example, fund balance for special revenue funds). These budgets will be discussed during the Budget Hearing. When the Board of Supervisors approves the adopted budget, they will also approve the necessary fund balance adjustments to special revenue funds to agree to the Auditor-Controller/Treasurer/Tax Collector's actual fund balance.

Amending the Adopted Budget

An operating budget is adopted each fiscal year for all Governmental Funds. Expenditures are controlled at the appropriation unit level within budget units for the County. Any increases in appropriation in a budget unit after adoption of the adopted budget will be submitted on a quarterly budget report placed on the agenda of the Board of Supervisors and a four-fifths vote is necessary for approval.

Transfers of appropriation within the same budget unit may be approved by the County Administrative Office depending upon the appropriation unit, unless noted below:

Transfer of Salaries and Benefits Appropriation:

- Transfers out require Board of Supervisors approval and should be included in a quarterly budget report.

Transfers of Fixed Asset Appropriation:

- Transfers in and out among the different fixed asset appropriation units are approved by the County Administrative Office as long as the total fixed asset appropriation does not increase.
- Transfers out of Fixed Asset Appropriation-
 - Transfers out increasing a non-fixed asset appropriation unit within individual Capital Improvement Program (CIP) project budgets are approved by the County Administrative Office as long as the total project budget does not increase.
 - Transfers out increasing a non-fixed asset appropriation unit are required to be included in the quarterly budget reports for Board of Supervisors approval, except within the CIP, as detailed above.
- Transfers in of Fixed Asset Appropriation-
 - Transfers in from a non-fixed asset appropriation unit to fund a unit value less than \$10,000 may be approved by the County Administrative Office.
 - Transfers in from a non-fixed asset appropriation unit to fund a unit value of \$10,000 or more are required to be included in the quarterly budget reports for Board of Supervisors approval.

Transfers impacting Operating Transfers Out Appropriation:

- Any changes to Operating Transfers Out are required to be included in the quarterly budget reports for Board of Supervisors approval.

BUDGET BOOK FORMAT

Budget units presented in this book are displayed at a fund/department level. Although some departments incorporate additional organizational levels when developing their budgets, the fund/department level of presentation was selected to provide consistency between all budget units. MAJOR EXPENDITURES AND REVENUE IN 2013-14 ADOPTED BUDGET

Requirements of \$20.1 million represent staffing expenses of \$15.2 million which make up the majority of expenditures in this budget unit and fund 134 budgeted positions. These expenses are necessary to provide an adequate level of administrative, finance, and support services including chief officers for Department operations in all regional service zones. Operating expenses of \$7.6 million fund administrative and support services, including: training, equipment, equipment maintenance, warehouse, vehicle, and communication services. Capital expenditures of \$3.1 million include County Fire's vehicle, apparatus and other equipment replacement plan. Reimbursements of \$14.3 million primarily represent transfers in from the regional service zones, HAZMAT, Household Hazardous Waste, and the Office of Emergency Services to fund administrative and support services functions. Operating transfers out of \$973,549 primarily includes the distribution of County Fire administration support to the regional service zones and vehicle/equipment replacement reserves. Sources for this budget unit are as follows: \$6.5 million of property taxes; \$710,019 of state/federal/other government aid; \$1.7 million of

fee/rate revenue from contracts, various Fire Prevention fees, and health fees; other revenue of \$476,666, and operating transfers in of \$3.9 million which includes County general fund support of \$3.7 million to fund the 2013-14 vehicle replacement program and emergency fuel.

BUDGET CHANGES AND OPERATIONAL IMPACT

Major requirement changes include an increase in operating expenses of \$540,361 primarily due to a technical reclassification of internal cost allocations and an increase in contingencies of \$3.5 million primarily as a result of prior year operations. Major changes in sources include an increase in fee/rate revenue of \$547,851 due to an increase in Fire Prevention permit fee revenue, an increase in other revenue of \$401,666 due to the development and implementation of a new Handcrew program, and a decrease in operating transfers in of \$798,397 primarily due to a direct transfer of County General Fund support to the Office of Emergency Services rather than the distribution to County Fire Administration followed by a transfer to the Office of Emergency Services.

STAFFING CHANGES AND OPERATIONAL IMPACT

Staffing expenses of \$15.2 million fund 134 budgeted positions of which 110 are regular positions and 24 are limited term positions. Staffing increased by a net total of 19 positions due to an increase of 1 Office Specialist, 1 Collection Officer, 2 Fiscal Assistants, 1 Fire Equipment Technician II, 1 Office Assistant III, 2 Public Service Employees (PSE) Battalion Chiefs and 18 Fire Suppression Aides, offset by a decrease of 1 Fire Marshal, 4 Division Chiefs, 1 Staff Analyst I, and 1 Office Assistant I. The operational impact of the changes will decrease over-time in the fiscal department, staff the new Handcrew program, transfer both the Fire Marshal and Staff Analyst I positions to the Hazardous Materials Division budget and the 4 Division Chief positions to their assigned regional service zone budgets.

STAFFING CHANGES AND OPERATIONAL IMPACT

Staffing expenses of \$7.4 million fund 93 budgeted positions of which 36 are regular positions and 57 are limited term. Staffing decreased by a net total of 36 positions due to a decrease of 37 Paid Call Firefighters (PCF) offset by an increase of 1 Division Chief. The decrease in Paid Call Firefighter staffing was due to a Department-wide Paid-Call staffing re-organization. These changes have no operational impact to the South Desert Regional Service Zone.

These expenses are necessary to provide fire protection, paramedic, and administrative services to the regional service zone. Additionally, operating expenses of \$7.8 million support the operations of 16 fire stations including the costs related to the facilities, equipment, vehicle services, and services and supplies. The most significant sources for this zone are property taxes of \$7.1 million, fee/rate revenue from contracts and special assessment taxes of \$20.4 million, and operating transfers in of \$4.1 million, which includes County general fund support of \$3.3 million.

Capital expenditures decreased by \$1.0 million due to one-time equipment and vehicle purchases for the Fontana Fire Protection District contract in 2012-13. Contingencies increased by \$1.6 million. Major changes in sources include an increase in fee/rate revenue of \$310,841 primarily due to an increase in special assessment revenue and contributions from Lytle Development Company, Lennar Lytle LLC as a result of the fair share contribution agreement with County Fire in support of Station #2 in Devore and a decrease in other revenue of \$1.3 million due to a decrease in one-time equipment and vehicle purchases funded by the Fontana Fire Protection District contract in 2012-13. Operating transfers in increased by \$1.0 million due to an increase in County general fund support for suppression operations offset by a decrease in transfers in from reserves for structure improvements.

DETAIL OF PARAMEDIC SERVICE ZONES IN 2013-14 ADOPTED BUDGET

Within the Valley Regional Service Zone, there are two Paramedic Service Zones (Service Zones); PM-2 Highland and PM-3 Yucaipa which are funded by voter approved special taxes. Each service zone is separately budgeted at the org level within the regional service zone and audited annually.

MAJOR EXPENDITURES AND REVENUE IN 2013-14 ADOPTED BUDGET

Operating expenses of \$285,605 include services and supplies to pay the Fontana Fire Protection District the net proceeds of the special tax levy, minus minor administrative costs, to administer the CFD. These expenditures are primarily covered by fee/rate revenue from a Special Assessment of \$565 per parcel which generates \$285,500 of revenue.

BUDGET CHANGES AND OPERATIONAL IMPACT

This budget is for a CFD which imposes a per parcel charge each year. The CFD is administered by County Fire and all revenue received is passed through to the Fontana Fire Protection District and it is not anticipated to have any new annexations to the CFD in 2013-14 or increases in costs. Therefore changes to this budget are minimal.

STAFFING CHANGES AND OPERATIONAL IMPACT

There is no staffing associated with this budget unit.

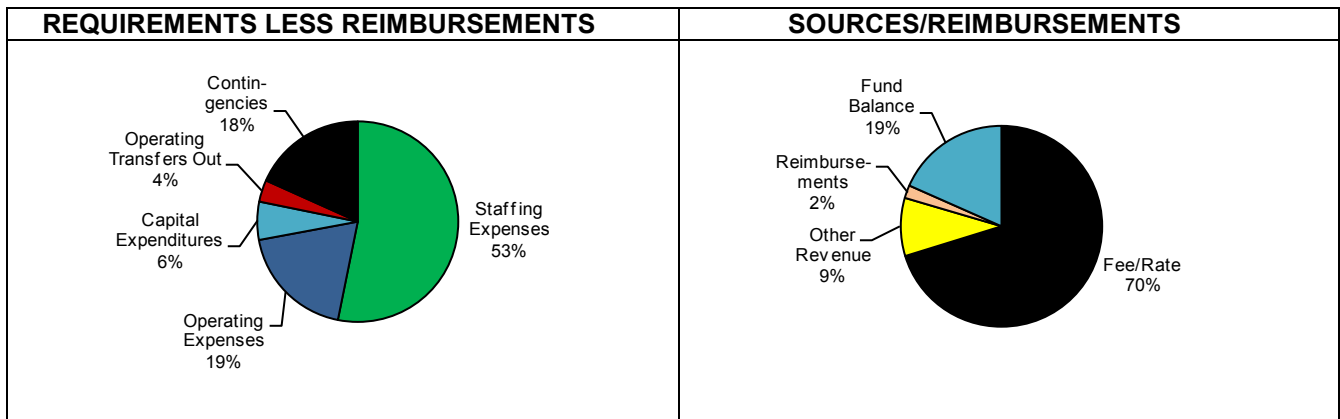

Hazardous Materials

DESCRIPTION OF MAJOR SERVICES

County Fire is an all-risk Department that provides for the oversight and regulation of all commercial hazardous materials and wastes. The program provides services in three major areas and these services are provided to all businesses in all cities within the County. The first program is the Certified Unified Program Agency, (CUPA) that inspects about 4,000 businesses to ensure the proper management of hazardous materials and wastes in six areas of State regulatory concern. The second program involves the cleanup of contamination from leaking underground storage tanks. Monitoring of about one thousand underground storage facilities has lead to the investigation of leaks at hundreds of facilities. The staff in this program work with the owner of the facility to provide the best and fastest methods to remove the contamination and protect ground water. The third program provides emergency response to, and investigation of, all releases of hazardous materials. This 24/7 team responds to all types of releases from businesses, pipelines, tanker trucks and rail cars. They are capable of mitigating the release as well as ensuring that any contamination resulting from the spill or release is remediated below any level of health risk concern. If there is any sign of misconduct, the program contacts the County Environmental Crimes Task Force that coordinates all investigatory activity with the District Attorney's office.

MAJOR EXPENDITURES AND REVENUE IN 2013-14 ADOPTED BUDGET

Requirements of \$2.3 million represent staffing expenses of \$1.5 million which make up the majority of expenditures in this budget unit and fund 17 budgeted positions. These expenditures are necessary to provide emergency management and disaster planning and coordination throughout the San Bernardino County Operational Area. Additionally, operating expenses of \$1.2 million support and assist all 24 cities and towns, as well as all the unincorporated portions of the County and include the costs related to the facilities, vehicle services, grants, and services and supplies. The most significant source for this budget unit is \$1.3 million of operating transfers in which represents County general fund support.

BUDGET CHANGES AND OPERATIONAL IMPACT

Major requirement changes include a decrease in operating expenses of \$651,012 due to a decrease in services and supplies and transfers out as a result of the closing of the 2011 EMPG grant and completion of 2010 HSGP projects in the prior year. Contingencies decreased by \$294,709. Reimbursements decreased by \$842,668 due to the 2011 EMPG, 2009 Regional Catastrophe, and Disaster Corps II grants closing. Major sources of revenue changes include a decrease in state/federal/other government aid of \$582,767 due to the 2011 EMPG, 2009 Regional Catastrophe, and Disaster Corps II grants closing and an increase in operating transfers in of \$481,926 due to increased County general fund.

STAFFING CHANGES AND OPERATIONAL IMPACT

Staffing expenses of \$1.5 million fund 17 budgeted positions of which 15 are regular positions and 2 are limited term positions. There is a zero net impact to the budgeted positions as a result of a decrease of 3 Contract Emergency Services Officer positions offset by the increase of 2 Emergency Services Officer and 1 Public Service Employee (PSE) positions. The operational impact of staffing changes will allow adequate staffing coverage to continue following the elimination of grant revenue which funded the contract positions. Additional County general fund has been allocated internally to fund the positions.

MAJOR EXPENDITURES AND REVENUE IN 2013-14 ADOPTED BUDGET

Operating expenses of \$2.0 million include \$831,276 in transfers to reimburse the Airport's general fund budget for staffing costs, services and supplies costs for personnel assigned to support the Apple Valley Airport, and general airport operating expenses including utilities. Contingencies of \$3.5 million are set aside for unanticipated expenses and for future capital projects. Sources of \$2.2 million primarily consist of \$1.7 million from tax revenue receipts and \$533,050 for leasing related activity revenues.

BUDGET CHANGES AND OPERATIONAL IMPACT

Major changes reflect a decrease of \$572,044 in requirements, which includes a net decrease of \$513,000 to operating transfers out due to the one-time transfer of \$500,000 to the Apple Valley Airport – Capital Improvement Fund for land acquisition in 2012-13, and a minor decrease in contingencies set aside for unanticipated expenses and for future capital projects. The overall decrease in sources of \$883,098 reflects budgeting the other revenue source category at a realistic level for 2013-14.

STAFFING CHANGES AND OPERATIONAL IMPACT

There is no staffing associated with this budget unit. However, this budget reimburses the Airport's general fund budget for staffing costs incurred in connection with service to the Apple Valley Airport.

San Bernardino County Flood Control District

DESCRIPTION OF MAJOR SERVICES

The San Bernardino County Flood Control District (District) was created in 1939 under special state legislation. Since its inception, the District has developed a very extensive system of flood control and water conservation facilities, including dams, conservation basins, debris basins, channels and storm drains. The purpose of these facilities is to intercept and convey flood flows through and away from developed areas of the County, as well as to promote water conservation and improved water quality.

Budget at a Glance

Total Requirements	\$153,180,829
Total Sources	\$70,840,524
Fund Balance	\$82,340,305
Use of Fund Balance	\$18,530,255
Total Staff	146

The District covers the entire County, including all of the incorporated cities. The District is divided into six geographic flood zones (in recognition of the different characteristics and flood control needs in various areas). Zone 1 encompasses the County's west end, from the Los Angeles and Riverside County lines to West Fontana. Zone 2 encompasses the central area of the San Bernardino Valley easterly of Zone 1 to approximately the Santa Ana River and City Creek demarcations. Zone 3 covers the east end of San Bernardino Valley, east of Zone 2. Zone 4 covers the Mojave River Valley region, from the San Bernardino mountains to Silver Lakes. Zone 5 primarily includes the San Bernardino mountains. Zone 6 encompasses the remainder of the County not covered by other zones. The District has also established a countywide administrative zone (Zone 7). The District's funding is primarily derived from property taxes, federal and state aid on specific projects, subdivision and permit fees, rents and royalties, and revenue from local water agencies for water spreading services.

The District's principal functions are as follows:

Flood Protection on Major Streams: In cooperation with the federal government, the District conducts programs for channel and levee construction, floodwater retention, and debris basin maintenance. Programs or projects are often done in cooperation with the incorporated cities, the U.S. Army Corps of Engineers, and the U.S. Bureau of Reclamation.

Water Conservation: The District operates and maintains water conservation basins and spreading grounds. Water from the local mountains and Northern California is spread and percolated into the groundwater basins underlying the County. The District has numerous joint use agreements with water districts allowing use of District facilities for groundwater recharge.

Storm Drain Construction: The District is active in comprehensive storm drain master planning/construction and cooperates with incorporated cities and other agencies in storm drain projects.

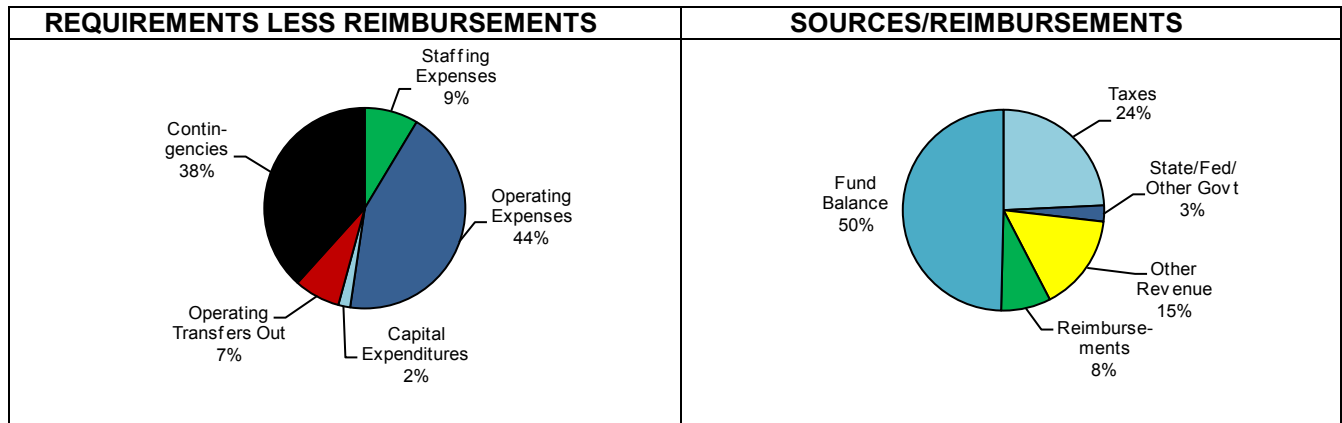

Facility Maintenance: The District has a proactive maintenance program for its facilities. Regular inspections of the storm drains, channels, and basins are made as required by various state and federal agencies.

National Pollutant Discharge Elimination System (NPDES): The District is the lead permittee in the San Bernardino Valley area-wide NPDES permit with 16 cities as co-permittees. The NPDES program, through the State Water Quality Management Board, regulates storm water quality through very detailed and complex permits, which affect everyone within the Santa Ana River Watershed and is expanding into the high desert area of the Victor Valley under Phase II of the permit.

Flood Operations: During the flood season, the District maintains telemetry systems for monitoring rainfall and runoff and dispatches storm patrols as dictated by the projected severity of a storm. The District has access to a weather satellite data delivery system to provide state-of-the-art weather information. The system provides advance warning of major storm activity.

MAJOR EXPENDITURES AND REVENUE IN 2013-14 ADOPTED BUDGET

Staffing expenses of \$14.3 million fund 146 budgeted positions to oversee administration, operations and maintenance of the District's facilities. Operating expenses of \$72.8 million primarily include: \$36.7 million in service contracts for construction projects; \$7.4 million for bond payments; and \$16.0 million in transfers, of which \$11.6 million is for internal payroll distribution, \$3.9 million to pay the Transportation Division for work performed on District projects and to reimburse for administrative costs, and \$0.5 million to other County Departments for various purposes. Capital expenditures of \$3.2 million are primarily needed to purchase land and right of way for mitigation and/or construction purposes. Reimbursements of \$13.2 million are primarily related to internal labor distribution charges.

The District's primary revenue source is property taxes which is budgeted at \$40.2 million. Other major revenue sources include governmental aid at \$4.3 million to partially fund Seven Oaks Dam maintenance and the NPDES program, operating transfers in of \$13.6 million (\$1.3 million from the County general fund for the NPDES program and \$12.3 million for internal administrative transfers between funds), and \$12.2 million in other revenue primarily from several land sales that are anticipated.

BUDGET CHANGES AND OPERATIONAL IMPACT

Total requirements are increasing by \$26.6 million due to the following:

- \$18.9 million increase in contingencies primarily for future construction projects and debt service.
- \$3.1 million increase in operating expenses primarily due to increases related to planned construction projects.
- \$2.0 million increase in operating transfers out due to additional transfers between the District's zones.
- \$1.0 million increase in capital expenditures primarily for the purchase of right-of-way and land acquisition to facilitate construction projects.
- \$2.3 million decrease in reimbursements due to reductions in internal payroll distribution reimbursements and labor reimbursements from the Transportation Division for work performed by District employees on Transportation projects.
- \$0.7 million decrease in staffing expenses mostly from a net reduction of 12 positions.

Total sources are decreasing by \$3.4 million primarily because of the following:

- \$15.2 million decrease in operating transfers in primarily due to \$5.9 less from the General Fund for Rimforest and \$10.3 less from Zone 4 to Zone 1 for Colonies litigation expenses that are no longer necessary.
- \$9.2 million increase in other revenue due primarily to proceeds from several land sales anticipated to occur in 2013-14.
- \$3.9 million increase in taxes to reflect both a small increase in the assessed valuation of property and the dissolution of Redevelopment Agencies having a positive impact on District property tax revenues.
- \$0.9 million decrease in fee/rate revenue primarily from County Fire for the Hazardous Tree program (program ended on June 30, 2013).

Additionally, the fund balance has increased by \$30.0 million primarily as a result of accumulating funding for several construction projects.

PROGRAMMATIC INFORMATION

Flood Control facility maintenance funding remains steady at \$7.5 million Countywide. The NPDES program is budgeted at \$4.7 million and is funded by the County (\$1.3 million), the sixteen participating cities (\$1.6 million), and the District (\$1.8 million). MAJOR EXPENDITURES AND REVENUE IN 2013-14 ADOPTED BUDGET

Operating expenses of \$1.6 million make up the large majority of expenditures for this budget unit and consist of motor pool charges, equipment repairs, and maintenance charges from the Fleet Management Department. Additionally, capital expenditures budgeted in the amount of \$458,000 include the following purchases:

- \$400,000 for a Wheel Loader (replacement)
- \$38,000 for a Service Truck (replacement)
- \$20,000 for a Polaris Ranger (replacement)

Usage/rates of the District's heavy equipment fleet represent the main source of revenue for this budget unit.

BUDGET CHANGES AND OPERATIONAL IMPACT

Requirements are decreasing by \$4.7 million as amounts representing available net assets set aside for future use are no longer shown in contingencies. The 2013-14 budget also includes small reductions in requirements for auto repair costs and capital expenditures. The reduction in total sources of \$145,000 is primarily the result of decreases in rental usage revenue and equipment sales.

STAFFING CHANGES AND OPERATIONAL IMPACT

There is no staffing associated with this budget unit.
