GRAND TERRACE, RIVERSIDE – **San Bernardino County Fire** responded to reports of a car fire with parties trapped inside the car near Canal and Newport in the City of San Bernardino.

On arrival, fire crews located a fully engulfed sedan. Firefighters went into attack mode to attempt to extinguish the fire. They located no victims in the car and determined that the car was abandoned. After a lengthy firefight, firefighters were finally about to extinguish the fire. No other information was available at the time.

Electrical distribution or lighting equipment are involved in almost half of home Christmas tree fires, and for 22 percent of Christmas tree fires, some type of heat source, such as a candle, was too close to the tree. Ernest Figueroa says the **San Bernardino County Fire Department** offers the following safety tips for Christmas decorations...

As residents try to make their homes look and feel festive this weekend, the San Bernardino County Fire Department offers the following safety tips:

Keep your live tree watered at all times and keep it away from heat sources. Inspect Christmas lights for exposed or frayed wires, loose connections, and broken sockets. Do not overload extension cords or outlets, and don't run cords under rugs or furniture. Don't burn tree branches, treated wood, or wrapping paper in your home fireplace. Make sure you have good ventilation when using artificial snow or any other aerosol product. Mistletoe berries, holly berries, and Jerusalem cherries can be poisonous; keep them away from children and pets.
