A huge fire spread quickly in a commercial yard in Adelanto, knocking out power to the surrounding area)

The **San Bernardino County Fire** Department was the lead agency battling the fire with help from the Apple Valley Fire Protection District and the Victorville Fire Department.

A knockdown was reported around 8:27 p.m.

AIR7 HD captured video of the building engulfed in flames. Crews were also spotted trying to repair power lines, which also caught fire and caused a brief outage.

It's unclear what the building houses. The courtyard is located near several homes and a strip mall.

Drivers and residents were urged to stay clear of the area.

San Bernardino County firefighters were called to a large commercial fire in Adelanto on Wednesday. (San Bernardino County Fire Protection District)

A large fire at a commercial yard in Adelanto destroyed two buildings, including a former fire station, on

Wednesday as **San Bernardino County firefighters** battled intense flames and other hazards.

Numerous 911 callers reported hearing explosions and seeing flames around 4:35 p.m. in the area of Baldwin

Street and Hardy Avenue, said Mike McClintock, a battalion chief with the county Fire Protection District.

“Crews arrived to find a large commercial yard well involved with fire,” McClintock said. “Multiple exposures, including a strip mall, multiple homes and old Fire Station 321, were threatened by the large fire.”

Firefighters worked to keep the flames from spreading to the neighboring buildings while also working away from downed power lines at the scene, he said.

“Due to the large fire and threats, a second alarm was quickly requested,” McClintock said. “Limited water supply and downed power lines hampered firefighting efforts.”

Crews knocked down the blaze at 7:30 p.m., he said. Two buildings were destroyed, including the former fire station. A landscaping company also suffered losses to its products and yard, but firefighters were able to keep the blaze from spreading to a nearby strip mall and homes.

Southern California Edison crews were called to handle the downed power lines, McClintock said. No one was injured by the fire.

Units from the Victorville Fire Department and Apple Valley Fire Protection District also responded to the blaze, he said.

Adelanto, San Bernardino City Fire Department

ADELANTO (CBSLA) – **San Bernardino County Fire** crews were able to knockdown a major two-alarm commercial fire in Adelanto Wednesday evening.

Authorities said the fire crews responded to the large commercial blaze in the 18000 block of Baldwin Street at around 4:35 p.m. Wednesday and went into defensive mode to protect other nearby homes and a strip mall center.

Officials said they think the fire started at a nursery on Baldwin Street. There were reportedly several explosions, possibly from propane tanks used at the business where the fire raged.

About 50 firefighters were called out to manage the blaze. No injuries were reported, and fire damage did not extend to any homes or the neighboring strip mall.

Firefighters are battling the flames in the San Bernardino County city. As seen on Wednesday, Jan. 12, 2022.

Firefighters battled flames on Wednesday at a commercial building in San Bernardino County.

The **San Bernardino County Fire** Department said that the commercial fire was reported in the 18100 block of Baldwin Street.

It was initially reported as a yard on fire with multiple exposures.

The fire was reported out about three and a half hours later with no damages to homes or the strip mall.

A fire at a commercial property in Adelanto claimed two structures as it burned Wednesday afternoon and evening, though the San Bernardino County Fire Protection District was able to prevent the blaze from spreading to other structures.

The two-alarm Baldwin Fire, located in the 18100 block of Baldwin Street, destroyed two buildings, including the old Fire Station 321, “which served the area for many years,” according to a news release from Battalion Chief Mike McClintock.

Additionally, a nearby agricultural supply company “sustained heavy losses to their products and yard,” McClintock said.

“Despite heavy fire conditions, power lines down and a limited water supply firefighters were successful in keeping the fire from spreading to a nearby strip mall and homes,” McClintock said.

There were no injuries during the more than three hours it took firefighters to gain control over the fire.

The San Bernardino County firefighters, who responded with six engines, two truck companies and a heavy equipment team, among other personnel, were joined by representatives of the Victorville and Apple Valley fire departments, McClintock said.

Home/Local/Adelanto fire: San Bernardino Fire Department battling massive commercial yard fire on Baldwin Street, east of Highway 395

Adelanto, CA (KABC)-Firefighters are working to extinguish a large fire in a large commercial building in Adelanto. The fire began Wednesday afternoon in a commercial courtyard near the intersection of Baldwin Street and Bartlett Avenue, just east of Highway 395.

The San Bernardino County Fire Department is a major fire extinguishing agency with the support of the Apple Valley Fire Department and the Victorville Fire Department.

AIR7HD captured a video of a building in flames. The crew was also found trying to repair the power lines, which also ignited and caused a temporary outage. It is unknown what the building houses. The courtyard is close to some homes and strip malls.

Drivers and residents are encouraged to stay away from the area.

Firefighters battle blaze in Adelanto

Rene Ray De La Cruz, VICTORVILLE DAILY PRESS

Posted: January 12, 2022 at 10:56 pm

The San Bernardino County Fire Department reported a two-alarm fire Wednesday night in Adelanto.

County Fire officials reported that at 4:34 p.m. that evening, they received a call about the blaze in a commercial yard in the 18100 block of Baldwin Street.

The fire was reported in a residential neighborhood north of Bartlett Avenue in Adelanto and west of the Southern California Logistics Airport located in Victorville.

The Apple Valley Fire Protection District and Victorville Fire Department were called to assist and Southern California Edison was called to repair power lines, county fire said.

Firefighters were working to protect nearby structures, and downed power lines and a limited supply of water posed challenges, the county reported.

A column of heavy black smoke could be seen miles away, according to residents, who also said they heard loud explosions after the fire began.

A local real estate broker that night, posted on Facebook that two structures on Bartlett Avenue were also on fire.

Just before 8:30 p.m. Wednesday, county fire reported that the "Baldwin Fire" was knocked down, with no extension to adjacent homes or a strip mall. Firefighters will remain on scene.
