Yucca Valley Trailer Fire put out early Friday morning (11/4)

Jef Harmatz, Z1077FM

November 4, 2022

A trailer fire was extinguished in the 7000 block of Elk Trail in Yucca Valley early this morning (November 11) with no injuries or major damage to nearby structures.

Units from the **San Bernardino County Fire** Department arrived at approximately 2 a.m., where they found a travel trailer burning, with flames extending into the structure of the house. The Fire Department said that all occupants were out of the trailer and house.

Two county fire engines were dispatched, along with a unit from Cal Fire, and they were able to quickly extinguish the flames.

The cause of the fire appears to be electrical in nature occurring from the trailer.
